# REAM NAVAL BASE

This report concludes an NPIC series on Cambodian ports and naval facilities. Ream Naval Base is located near the developing port facility of Sihanoukville and may have been so located to guarantee the security of the seaward approaches to that port.

19 Feb 66 (U) NPIC Project 11486AB/8

On the east side of the Baie Ream, 10 nm SE of Sihanoukville.

Ream is Cambodia's principle naval base. A major portion of the naval order of battle in the Cambodian fleet is permanently based at Ream, including PF, PT, YP, LSTL, and LCU.

Facilities include 3 finger piers, 2 marine railways, a small maintenance support facility, a barracks complex with 11 barracks, 2 POL storage tanks, an administration area with 2 small probable administration buildings, at least 4 storage buildings, and numerous small storage/support buildings.

General depths of  $2\frac{1}{2}$  to  $3\frac{1}{2}$  fathoms prevail in the outer part of the bay. The bay is fronted by several reef-fringed islands within the 5-fathom curve.
